Introduction and Background

As required by Texas Family Code, Subchapter B-1, Chapter 264, Section 264.172 (f), 88th Texas Legislature, the Office of Community-Based Care Transition (OCBCT) “shall report to the legislature at least once each calendar quarter regarding the implementation of Community-Based Care in the state.” Status reports shall be provided on September 30th, December 30th, March 31st, and June 30th of each year to the Texas Legislature.

Community-Based Care (CBC) changes the way the Department of Family and Protective Services (DFPS) procures, contracts, and pays for paid foster care services. Under a performance-based grant agreement, a single contractor provides services to children and families in their community (also known as “catchments” or “community areas”).

In Stage I, this Single Source Continuum Contractor (SSCC) is responsible for ensuring the full continuum of paid foster care placements and other services for children in the state’s legal conservatorship. SSCCs also support adoption recruitment, matching, and home studies. In Stage II, the SSCC expands services to include unverified relative or “kinship” placements, services to parents, and the SSCC has sole responsibility for the legal case management function. In Stage III, the SSCC continues the provision of all Stage I and II services and is awarded with financial incentives and disincentives for permanency outcomes, and additional performance measures for child safety and well-being. For information and data on the performance of SSCC contractors, see the [DFPS Rider 15 Report](#).

Update on Community-Based Care Expansion

Currently, of the 17,126 children in paid foster care, 49.4¹ percent are in SSCC community areas (as of February 20, 2025). Additionally, of the seven CBC catchments, four SSCCs are in Stage III and three SSCCs are in Stage II. There are no catchments in Stage I as of this report; details of the progress specific to each catchment area are outlined later in this report.

OCBCT and CBC Operations Division within DFPS partner to ensure sound contract management and implementation processes to support the expansion of CBC in Texas. DFPS posted a Request for Application (RFA) for Regions 6A, 6B, 8A, and 10 in February 2024 and is currently in the

contract award phase for regions 6A, 6B, and 8A. OCBCT continues to work with the University of Texas at Austin (UT Austin) on the CBC Process Evaluation, for which an Interagency Contract was established in Fall 2024. UT Austin is currently engaging child welfare stakeholder groups to ascertain current practices for CBC implementation and support. UT Austin will move towards collecting survey response from providers, feedback from focus groups, review of CBC performance reports, and will submit the final deliverable which is a CBC process evaluation recommendation report by August 31, 2025.

DFPS has included a request to expand CBC into regions 7A, 7B, 11A, and 11B in the agency’s Legislative Appropriations Request. As CBC implementation continues, OCBCT and DFPS remain committed to partner and support community stakeholders. The [CBC Outreach Request](#) form can be utilized by stakeholders, community members, staff, or any interested party to request information and presentations on CBC. This form can be found on the external [CBC website](#).
