Description

We are looking for a motivated Intern to join our development team. As an intern, you will work closely with experienced developers to design, develop, unit test, and maintain Salesforce applications. This role provides an excellent opportunity to gain hands-on experience in software development while contributing to real-world projects.

Responsibilities:

• Assist in the design, develop, and testing of Salesforce applications.

• Collaborate with team members to develop and enhance features.

• Debug, troubleshooting, and fix software defects under supervision.

• Write clean, maintainable, and well-documented code.

• Participate in code reviews and team meetings.

• Learn and apply best practices in software development.

• Support the team in research, documentation, and other development tasks.

Requirements

Currently, enrolled in a Bachelor's or Master's degree program in computer science, Information Technology, or a related field

• Basic knowledge of Object-Oriented Programming (OOP) concepts.

• Familiarity with databases and web technologies (HTML, CSS, JavaScript) is a plus.

• Understanding of version control systems (e.g., Git).

• Strong problem-solving skills and eagerness to learn.

• Good communication and teamwork abilities.

Preferred Skills

Experience with Salesforce applications

• Basic understanding of REST APIs and web services.
